
Oxygen concentration profile
SO_4 concentration profile
(a)
Homogeneous Higher k
lower water saturation in vadose
zone => deeper oxygen penetration
(b)
Homogeneous Higher k
(c)
Homogeneous Lower k
Higher water saturation in vadose
zone => less oxygen penetration
(d)
Homogeneous Lower k
Dissolved Oxygen saturation [-]
Sulfate concentration [mg/L]
Axes unit: [m]
Axes unit: [m]
